## Mack Pharmatech: On growth trajectory

Category: [Sub P-MEC India 2012](#)

Published on Monday, 26 November 2012 14:18

In the last 15 years, Mack Pharmatech has become the largest and most successful firm of specialist in manufacturing and supplying pharmaceutical and laboratory equipment. The combination of company's expertise, methodology and experience has helped it officially open its doors to launch new initiatives to achieve the business objectives – MACK AURAA and MACK UNIVERSAL. These initiatives will be run by Kiran Badgular, MD, Mack Pharmatech and Manoj Chaudhari, Director, Mack Pharmatech respectively. The company management ensures that both the companies will provide its proven effective business analysis and quality standards compliance services to its customers throughout the world to fulfill their requirements.

MACK AURAA and MACK UNIVERSAL were established with the vision of bringing solutions to meet the strategic goals of company and to provide intelligence to the businesses to make better decisions, using the best of standards. Both the companies are engaged in supplying a wide range of activities that touch the most basic and far advanced aspects of everyday life in pharma, food, chemical and other similar industries.
